

CJG Africa (Pty) Ltd Profile:

CJG Africa (Pty) Ltd was commissioned by experienced aviation entrepreneurs working in the Charter, Contract and Aircraft Management industry, the business opportunities that are presented in the aviation market have offered CJG Africa (Pty) Ltd the foundation to expand its service and to improve the current operating standard.

CJG Africa (Pty) Ltd specializes in a targeted market and client base, offering a better service and supply of goods direct to the client, making CJG Africa (Pty) Ltd the preferred service provider in an already competitive market.

CJG Africa (Pty) Ltd currently operates closely with large Mining, Hotel and Funeral companies in South Africa, servicing contracts throughout South Africa and Africa.

CJG Africa (Pty) Ltd also has an active tourism client base operating as one of the top suppliers of transport to the tourist travel industry and actively competes against all top aviation suppliers as the transport of choice.

Through 2014 we also expanded our operation to include freight transport to almost any destination in Africa.

CJG Africa (Pty) Ltd's success to date has been the unique and dynamic management that is completely client based. Our aircraft meet the highest standards as set out by Anglo and the South African Civil Aviation Authority, all maintenance is completed by the most experienced engineers in the industry, guaranteeing the best possible service our aircraft and personal can provide. Together with our BEE certification, CJG Africa (Pty) Ltd is able to provide services to all companies within South Africa.

Together with the high operating standards of CJG Africa (Pty) Ltd, we offer a very competitive Charter, Contract and Management operation with the professionalism, quality and safety required by the corporate clients we service.

Our company operates 24hrs a day throughout the year offering the client one of the fastest quoting and charter operations South Africa has to offer. With our current vision and client service we are able to offer well above industry turn around times on flights while still being very competitive.

In conclusion from the time CJG Africa (Pty) Ltd was opened we have been a client based company, servicing the clients directly with the professionalism and quality that could only lead to success, our company is still growing and by providing the industry with new and unique options to air transport that will continue to bring CJG Africa (Pty) Ltd's clients many years of loyal and successful transport.

Charter Operation:

CJG Africa (Pty) Ltd provides their clients with the service and experience they expect when chartering a private aircraft for their business or private requirements.

Our company offers fast turn around times on quoting and aircraft dispatch, while our highly qualified staff provides all their experience and knowledge to make certain the flight is one of a kind experience.

Our service extends through the whole range of aircrafts, offering the right choice for every charter.

We currently offer

- Twin Engine piston aircraft for our local businesses that operate around South Africa and neighboring countries as well as for shuttle services to the tourism industry offering transport to and from Game Lodges and Holiday resorts.
- Twin engine Turbine, pressurized aircraft seating up to 40 passengers for long and short distances.
- Corporate jets for our VIP clients offering the absolute best the industry has to offer. Long and short range available.
- Large transport jets seating up to 140 passengers in comfort. Long and short range available.
- Cargo aircraft offering various configurations for different cargo and combination flights.

CJG Africa (Pty) Ltd operates to the highest standards possible and deals closely with the South African Civil Aviation Authority to ensure our crew and aircraft are of the highest standard.

CJG Africa (Pty) Ltd also provides aircraft and crew to charter companies operating throughout Africa.

Services:

- High Net Asset Management
- Corporate Aircraft, Yacht and Vehicle Management.
- Charter, Medical Response, Repatriations, Contract, Lease, Fractional, Repossessions and Fixed Base Operations
